Workshop Name: Pyrography – Faux Western Tooling Design

Description: Detail instructions given by the instructor as well as receive a 16-page/29 photo step-by-step instructional book showing students how to pyrography a faux western tooling design on a gourd. Learn how to countersink a rivet into the middle of the flower design, woodburn shading at main locations, and use waterbased leather dye and acrylic paints for highlights and depth.

Materials Supplied by Instructor: *(If none are needed, write none.)*
Waterbased dyes, acrylic paints, nib cleaning supplies, brushes, turquoise rivets, and 16-page instructional book that the students will take home with them. Tracing and transfer paper, pattern, and pencils for putting design on the gourd.

Materials Supplied by Students: *(If none are needed, write none.)*
Clean and Uncut Gourd - **Must** have an area large enough on one side to accommodate a 6 ½” wide and 5 ½” high pattern. Price for class reflects students bringing their own gourd.
Woodburner - Professional burner is best. If you don’t have one, bring a Woodcraft or similar burner.
Nibs/Pens - Your favorite ones that can be used as a liner and/or shader.

Teachers provide gourds, extension cords, power strips, and tables. Volunteers will help you unload your vehicle. --- Received approval from your president, Gale Keys, for the students to furnish their own gourds in all my classes. Also, informed by Madge that tables would be furnished for students, but I will bring one for me.

Course Level: X **Beginner** with some experience with woodburners.
Minimum # of Students: 0 **Maximum # of Students:** 15
Workshop Charge: \$50 per student plus \$5 for MGS.
